EXPERIENCE

Stony Brook University | *Student Technologist* | Stony Brook, NY   **May 2024 – Present**
- Provide technical support to over 25,000 students and faculty through email, phone, ticket system, online chat and walk-ins for over 7.5k courses
- Collaborate with a team of 18 colleagues and 8 staff, ensuring timely resolution and knowledge sharing
- Develop and conduct workshops on software tools to students and faculty, enhancing their technological proficiency

Stony Brook University | *Health and Safety Officer* | Stony Brook, NY   **Aug. 2023 – Present**
- Conduct monthly inspections with 14 colleagues on over 56 residential buildings to preserve health and safety standards, documenting violations to the university's terms of occupancy
- Interacted with 100+ students daily, effectively responding to concerns and employing de-escalation as necessary
- Document and customize data sheets and databases, tracking confiscations and violations for over 10,000 residents

LEADERSHIP

NASA L'SPACE Mission Concept Academy | *Participant*   **Sep. 2024 – Present**
- Collaborate with a multidisciplinary team to develop and present a comprehensive mission concept
- Engage in hands-on learning about space mission design, mission planning, scientific and engineering principles
- Conduct research and analysis to evaluate mission feasibility, contributing to critical thinking in a real-world context

League of Legends Club at Stony Brook (SBULoL) | *President*   **Mar. 2024 – Present**
- Develop community events via finalized event schedules, directing team members, and addressing event concerns
- Facilitate weekly stand-up meetings with 12+ board members, arranging meeting agendas
- Presented and successfully advocated for a 27% budget increase to the Undergraduate Student Government by highlighting event attendance, demonstrating the impact of club activities, and outlining future goals

PROJECTS

Battle of the Brook (BotB)   **Oct. 2022 – Present**
- Organize and execute a bi-annual LAN tournament for League of Legends, attracting over 150 attendees and enhancing community engagement.
- Coordinate event logistics, including catering, prizes, and collaborations with sponsors and performers
- Conduct comprehensive event planning and logistics management, including scheduling, resource allocation, and risk assessment, to ensure a seamless tournament experience from start to finish.

Text-Based RPG (Python)   **Jul. 2020 – May 2021**
- Assembled a text-based Role-Playing Game in Python with real time events
- Executed an inventory system to keep track of items the player collected
- Implemented over 40 unique events, each having an impact on the outcome of the story
